Card type: flat (one sided)

TERMS AND POLICIES

All of these prices are general quotes based on designs with text and basic custom graphics, and do not apply to specific jobs. Because each job is different, I will create a custom quote just for you based on the specifications of your design. A deposit equal to one half of the total bill is due prior to beginning work on your custom design. The remaining balance will be due before we ship the completed custom order. All sales are final. In the event of a cancellation, you will be responsible for the cost of materials and labor incurred up to that point in time.

SHIPPING

All custom orders are shipped insured, with tracking, and delivery confirmation. 2 day shipping is free!

TURNAROUND

After the initial 30 minute design consultation, it will normally take 10 business days until you are presented with two options. At this point you can decide which direction you would like to take, and we can make one round of revisions if necessary. Additional rounds of revisions will incur a fee depending on the time involved. Once the design is finalized, it will take 10 to 15 business days to print, plus 2 to 3 days for shipping.

ABOUT LETTERPRESS

Letterpress printing is a centuries old method of printing text and images on to paper. A raised surface is inked and then pressed into a sheet of paper. It was the normal form of printing text in the West from its invention in the mid-15th century until the 19th century and remained in wide use for books and other printed material until the second half of the 20th century.
